- English (Fluent)
- Urdu(Fluent)

## DEPLOMA

### WEB DEVELOPMENT

02/26\_\_\_\_05/26  
INSITUTE: Corvit Lahore  
LOCATION: GULBERG 3-LAHORE

## PROFILE

I focus on creating user-centered digital experiences through clean code, high-performance web applications, and seamless interfaces. Collaborating closely with product and design teams, I bridge the gap between complex logic and intuitive UI to build scalable products that align with business goals. Specializing in modern web ecosystems, I transform creative concepts into robust, future-proof digital solutions that drive real impact. Let's connect!

## PROJECTS

### Who Pays The Bill

- Developed an interactive gamified web application utilizing React and TypeScript to manage participant lists and randomly select bill payers.
- Built a highly responsive and intuitive user interface with Tailwind CSS, ensuring seamless interactions and instant visual feedback across all devices.
- .Configured automated deployment pipelines using Vercel to guarantee continuous availability and optimized frontend performance.

### Counter App

- Developed a dynamic React-based application demonstrating efficient state management for real-time numerical increments and decrements.
- Styled a clean, mobile-responsive, and minimalist user interface using Tailwind CSS to ensure a seamless cross-device user experience.
- Deployed the optimized production build via Vercel for continuous integration and high-speed global availability.

### Typing Test Application

- Developed an interactive typing speed test application utilizing React and TypeScript to track real-time keystrokes and calculate user accuracy.
- Developed an interactive typing speed test application utilizing React and TypeScript to track real-time keystrokes and calculate user accuracy.
- Deployed the project via GitHub Pages to ensure continuous availability, optimal performance, and seamless access for end users.

## EDUCATION

**Punjab Group Of Colleges, PAKISTAN.** 2029 - 2031  
Intermediate in Computer Science.  
**Virtual Universty, PAKISTAN.**  
BS Data Sciences.
